

Step no 1

The screenshot shows the 'Create Static Web App' wizard on the 'Basics' step. At the top, there's a navigation bar with 'Microsoft Azure', a search bar, and various icons. On the right, it shows the email 'bsse2280152@szabist.pk' and 'DEFAULT DIRECTORY (BSSE22801...)'. Below the bar, the page title is 'Create Static Web App'. A breadcrumb trail shows 'Home > Static Web Apps > Create Static Web App'. The main content area has tabs for 'Basics', 'Deployment configuration', 'Advanced', 'Tags', and 'Review + create'. The 'Basics' tab is selected. A sub-section titled 'Project Details' asks to select a subscription and resource group. A note says: 'App Service Static Web Apps is a streamlined, highly efficient solution to take your static app from source code to global high availability. Pre-rendered content is distributed globally with no web servers required.' Below this, there's a 'Subscription' dropdown set to 'Azure subscription 1' and a 'Resource Group' dropdown showing '(New) Code_group' with a 'Create new' link. The 'Hosting region' section is collapsed. At the bottom, there are navigation buttons: 'Review + create' (highlighted in blue), '< Previous', and 'Next : Deployment configuration >'.

Step no 2

The screenshot shows the 'Create Static Web App' wizard on the 'Review + create' step. The top navigation and user info are the same as the previous screenshot. The page title is 'Create Static Web App'. The breadcrumb trail is identical. The main content area has tabs for 'Basics', 'Deployment configuration', 'Advanced', 'Tags', and 'Review + create'. The 'Review + create' tab is selected. A 'Summary' section shows the app is a 'Static Web App by Microsoft'. Below it, a 'Details' section lists the configuration: Subscription (M9a9265-0df5-4875-b04c-dd52e3a22a79), Resource Group (Lab-RG), Name (Code), Region (eastus2), and SKU (Standard). At the bottom, there are 'Create' and 'Cancel' buttons.
